BYOB

In 1977 the plastic grocery bag was introduced to the supermarket industry. They are now readily available and a convenience. An estimated 500 billion to 1 trillion plastic bags are consumed worldwide each year. They are made of high-density polyethylene and titanium chloride and as they break down they pollute our soil and water. So the next time you go to the grocery store, BYOB (Bring Your Own Bag). Sturdy canvas and cloth bags are cheap to buy and can be used over and over. They are easy to carry and easily stored. Life without plastic bags is possible—try it!

Consider including reusable shopping bags on your Christmas list! They are nice to pack Christmas gifts in (save on paper!) and they are a gift that “keeps on giving!”
