**St. Anthony’s Eco-Commission!**

- Pope Francis believes that we human beings are capable of rising above ourselves and choosing what is good and making a new start. It is a new year, a time to look forward and make plans. What things do we want to accomplish in this brand new year. Perhaps, we can strive to reduce our consumerism, by buying less. We should stop and think before we spend and accumulate more stuff. Remembering the people who spend their days making the stuff we put into our carts.
- We must be conscious and careful with our use of the plants precious goods. Remember those little changes, like turning off the water while brushing our teeth. So simple, but it opens our eyes. Change is a part of life. We can make the decision to do things to make a positive change for our earthly home.
- It can be fun to challenge yourself and your family to take even little steps to protect this beautiful planet. God has given us such a beautiful place to live. Look at this place with new eyes, see the sky, feel the wind, look at a snowflake. We must not treat our home like a rubbish bin.
- God loves us so much, how do we show our love in return? Make a choice to be mindful and treat our common home with respect.
