**St. Anthony’s Eco-Commission**

We are being warned to keep our consumerism in control. We are living to consume, increasing our consumption of goods and services. The dictionary defines Consumerism as continual expansion of one’s wants and needs for goods and services. Shopping for entertainment, buying things we really don’t need. The Pope is asking us to step back and really think about what we are doing and reminds us that purchasing is always a moral and not simply an economic act. Let’s try to hear the cries of the needy. Take an inventory of what you have before you go shopping. You will be surprised that you already have more than you thought.
