St. Anthony's Eco-Commission

The new year brings us the opportunity to reassess the way we live. Are there areas that we can be kinder to our planet? Can we give more thought to the ecology and our effect on it. Perhaps we can make a resolution to recycle more of our daily trash or commit to using items like reusable water bottles and grocery bags. They are many small ways that we can reduce our footprint on Mother Earth. Each person doing a little can add up to a large impact by us all to improving our environment for future generations.
